

What should local authorities do in response to the climate emergency?

Hazel Williams – *Head of delivery, Regen*

05 February 2020

An outbreak of declarations

265/408 local
authorities

Source:

<https://www.climateemergency.uk/blog/map-of-local-council-declarations/>

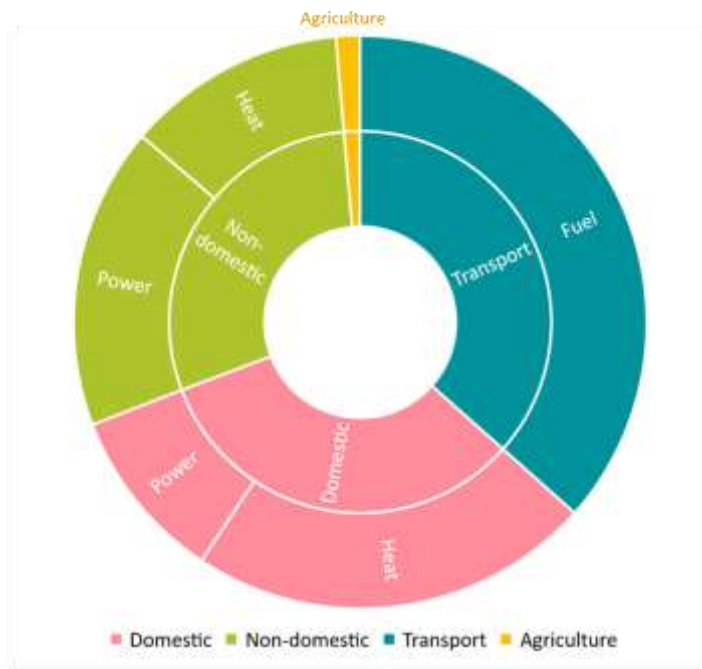

Creating the right environment

Dedicating funding and
resources

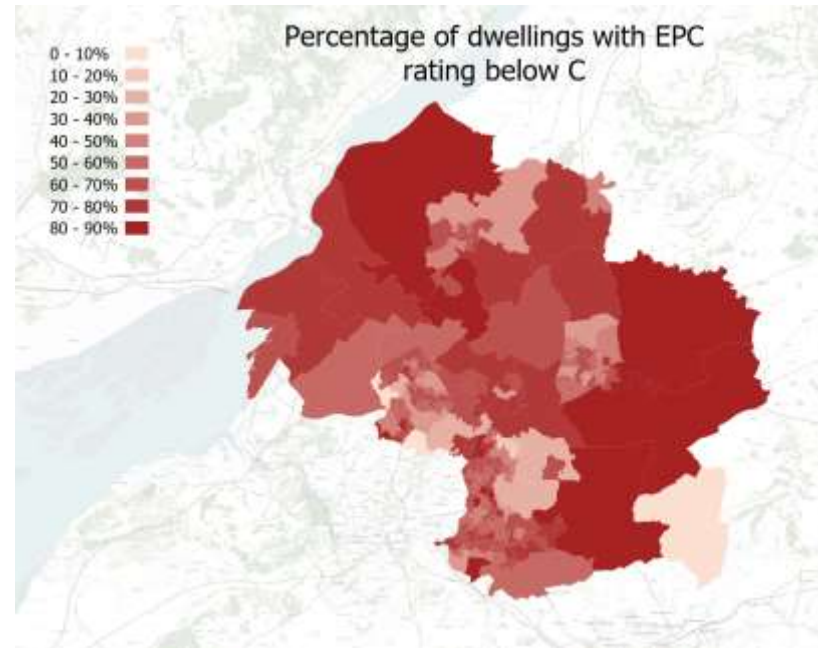

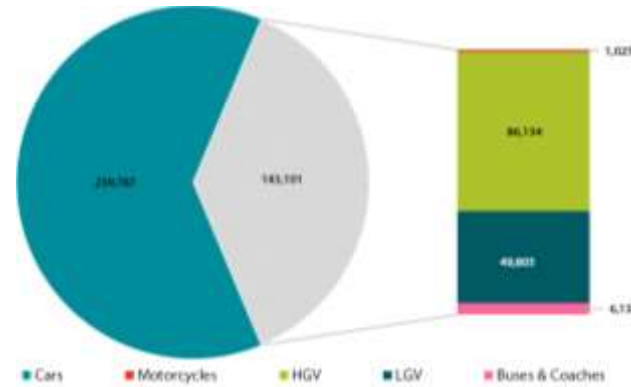

Understanding what needs
to be done

Building effective partnerships
through local governance

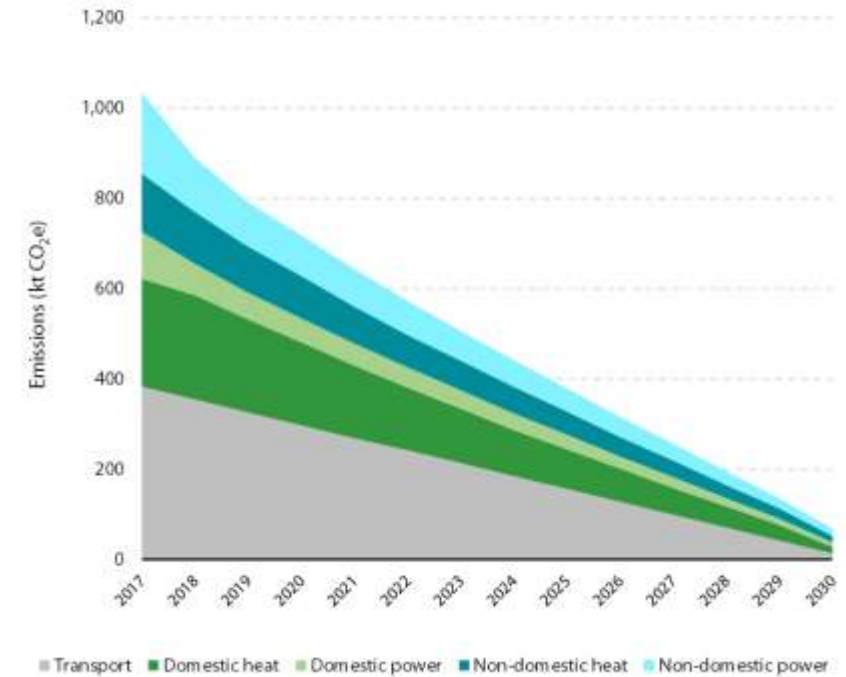

Baseline emissions by source

Sub-sector, fuel-type and spatial

Pathways to net-zero

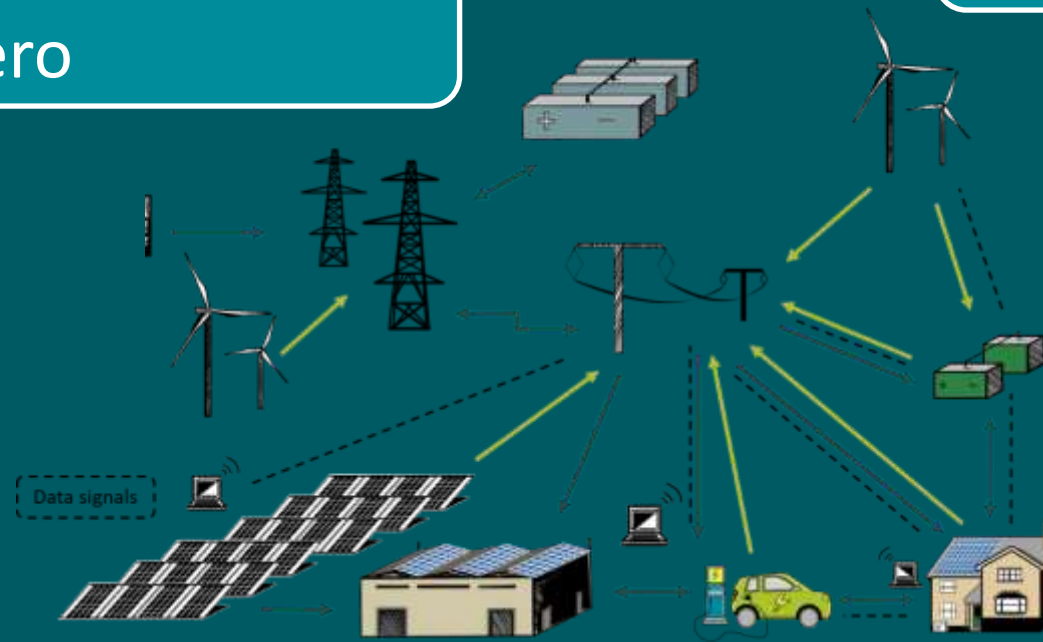

Five transformational roles

Creating an infrastructure plan for net zero

Resetting all decisions to be net zero

Building social permission and inspiring action

Co-investing in projects and infrastructure

Priming the retrofit market

Thank you!
