

# Lessons of the past 12 months

Reflections of a former youth striker:  
Scaling up collaborative approaches to  
community energy & it's urgency in a  
climate emergency.

# The Solar for Schools CBS

3.5Mw of no cost solar projects run by schools, for schools

- £3 million in community investment funding
  - Options to go solar at no cost to school
  - Costs paid for through power purchase between school and CBS
- + Financial benefits (savings + profit share)
- + Integrated education & future programme partners
- + No risk
- + School flexibility / control

# Council Partners in the Climate Emergency

265 Local Authority Declarations  
UK Government 2050 Target  
New ambitions & pressures  
No additional capacity

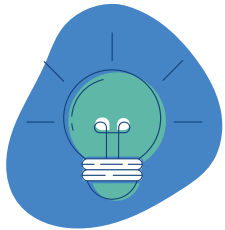

Climate  
Emergency  
10 years

Fiscal  
resilience

Engaging  
communities

Integrating with  
other local issues

Creating institutional  
legacies

## A role for Solar for Schools & Options

Use our national CBS & no cost solar options for creating immediately scaled & school protected solar programmes

## A role for the Council

Integrate public-private solutions to create scaled, bill saving & revenue generating solar projects.

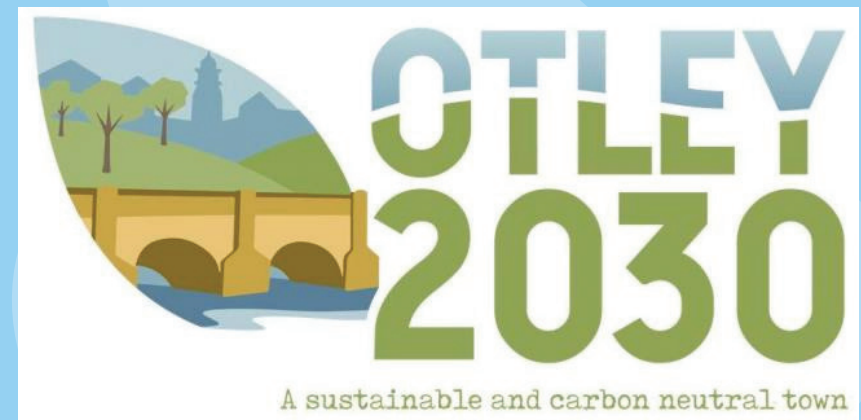

## A role for other CBSs

Use your expertise & local roots. More projects without financial & legal risks. Sharing responsibilities. Owning assets when ready.

# Case Study Collaboration

## Otley Energy 2030

- Sharing capacity to create maximum solar gain in the immediate

# Collaborative. Flexible. Urgent.
